PRODUCT GUIDE

A PERFECT RECIPE TO MAXIMIZE MARGIN

Based in the heart of Wisconsin's dairy region, Gilman Cheese is a highly specialized master of creating high-quality, minimally processed, shelf-stable cheeses that rival all-natural cheeses for their taste, texture and consistency.

Why Gilman?

If shelf life is critical to your retail application—and a premium taste experience is critical to your brand's image and profit potential—you won't find another cheese that rivals Gilman.

REAL CHEESE  **CLEAN & SIMPLE**

98% Natural
blended with a few other natural ingredients

BOUNDARY-PUSHING SHELF STABILITY

12 months to as many as 18 months refrigerated!

VERSATILE CAPABILITIES

Size, shape, packaging—**YOU NAME IT**

Plus, small-batch testing for ambitious new flavor profiles!

NIMBLE OPERATIONS

See a new market opportunity? No other supplier can react more quickly.

SUSTAINABILITY POSITIVE

Crafted using top-floor "LEFTOVERS"  from **natural cheese makers**, thus, continually taking waste out of the total food value chain

EASY TO DO BUSINESS Low minimums and streamlined service, with no corporate sales bureaucracy.

a Diverse Menu to Hit Any Taste-Bud Target

Cheddar

a proprietary blend of natural-aged cheddar cheeses for a one-of-a-kind taste. Always a homerun on burgers, crackers, or as a satisfactory snack by itself.

Jalapeño Pepper

a mild Monterey and bold cheddar cheese blend with a spicy accent. Grate it for tacos or chili. Melts beautifully for burritos and corn chips.

Mozzarella

a creamy fresh and mild taste derived from premium natural cheeses. The classic snack-pack staple. Or grate it for all kinds of old-world food favorites.

Wisconsin Swiss

distinctively flavorful for its balance of natural Swiss and cheddar cheeses. The perfect complement for ham-on-rye. A fantastic melt for a sauce or fondue.

Asiago

a softer, milder Italian cheese known for its unique blend of sweet and nutty flavors. Snacks like no other and grates exceptionally well for breads, salads, you name it.

Buffalo Wing Cheddar

a special mix of peppers gives this popular cheddar an added Buffalo-sauce kick. Cubes nicely for party platters and yields an outstanding melt on burgers and more.

Smoked Cheddar

real hickory wood gives this rich cheddar cheese blend a robust smoky tone. Incredible by itself. Takes burgers into a new flavor dimension.

Cheddar Bacon

a downhome country blend of cheddar cheese and the finest real bacon. Perfect for melting over burgers, baked potatoes, casseroles and more.

Smoked Gouda

a natural smoldering hickory flavor takes this creamy Gouda to a new level. The instant king of any party tray or guilty pleasure of any lonely snack sneak.

Smoked Swiss

a smooth Swiss cheese that spends quality time in our natural hickory smokehouses. Sliced or melted, takes sandwiches, cordon bleus and more to new places.

Ranch Cheddar

a delectable white-cheddar blend with a zesty-ranch bite that gets your attention. Enjoyable as a unique snack or melts nicely over nachos and other party favorites.

Vintage Yellow Cheddar

a sharper taste with the classic color that, together, define a true 'vintage' cheddar. Stands out among cheese assortments or on sandwiches, baked potatoes and more.

Shelf-Stable Cheese PACKAGING OPTIONS

Tiromat® Packaging

Tiromat packaging is a customer favorite because of its shape and size versatility at a lower cost. The technology maximizes the cheese's presentation and protection by yielding an attractive, uniform sealed edge, with a range of printed film and label options.

Cryovac® Packaging

Cryovac packaging is desirable in some gift and retail components because of the clean package appearance with a seam on only one side. This more expensive packaging option does not allow for printed film, but the hand-applied label possibilities are endless.

Shelf-Stable Cheese CARE INSTRUCTIONS

- **SHELF LIFE:** Provided the cheese remains hermetically sealed and stored below 72° F, shelf life is 12 months (6 months for shredded product).
- **SHELF STABILITY NOTICE:** Shelf-stable cheese can be displayed at point of sale without refrigeration in normal store temperatures. Avoid displaying in direct path of heat outlets, in direct sunlight, or near other heat sources. During distribution and storage, we recommend cooler temperatures (35°F– 40°F) for the best flavor retention and shelf life.
- **SHIPPING INSTRUCTIONS:** Shipping of shelf-stable cheese requires refrigeration at temperatures between 35°F–50°F.
- **DO NOT FREEZE:** Freezing shelf-stable cheese will adversely affect the quality of the cheese. Specifically, freezing this cheese will result in a soft, gummy body.
